

FIG. 1

FIG. 3 is a cross-sectional view of the device taken along line 3-3 of FIG. 1, showing the internal components and the relationship between the housing 4 and the internal assembly 6. The housing 4 is shown in cross-section, and the internal assembly 6 is shown in cross-section. The internal assembly 6 includes a central component 8, which is surrounded by a series of concentric layers or components. The housing 4 is shown with a flange 44 and a seal 38. The internal assembly 6 is shown with a flange 36 and a seal 44. The housing 4 is shown with a flange 44 and a seal 38. The internal assembly 6 is shown with a flange 36 and a seal 44.

FIG. 3

FIG. 5 is a top view of the device 10 showing the outer ring 22, the inner ring 24, the central hub 40, and the various components 14, 18, 20, 28, 30, 38, 48, 56, 62, 64, 68, 88, 90. The device 10 is shown in a cross-sectional view, with the outer ring 22 and the inner ring 24 being the main components. The central hub 40 is located in the center of the device. The components 14, 18, 20, 28, 30, 38, 48, 56, 62, 64, 68, 88, and 90 are shown in various positions around the device. The device 10 is shown in a cross-sectional view, with the outer ring 22 and the inner ring 24 being the main components. The central hub 40 is located in the center of the device. The components 14, 18, 20, 28, 30, 38, 48, 56, 62, 64, 68, 88, and 90 are shown in various positions around the device.

FIG. 12

FIG. 11

FIG. 15 is a cross-sectional view of the device 10, showing the internal components and the housing 10. The device 10 includes a housing 10, a central component 16, and a plurality of components 90. The central component 16 is a gear-like structure with a central shaft. The components 90 are located around the central component 16 and are connected to the housing 10. The device 10 is shown in a cross-sectional view, with the housing 10 and the internal components 16 and 90. The housing 10 is a circular structure with a central opening. The central component 16 is a gear-like structure with a central shaft. The components 90 are located around the central component 16 and are connected to the housing 10. The device 10 is shown in a cross-sectional view, with the housing 10 and the internal components 16 and 90.
